REALITYCLASH

TURNS GAMES INTO REALITY

Reality Clash Token Sale

The worlds first augmented reality mobile game available on iPhone & Andriod

Reality Clash is excited to introduce the **Reality Clash Coin (RCC)**, that powers the Reality Clash mobile game with unique ERC-20 armory.

About Reality Clash

Reality Clash is an augmented reality first person shooter (FPS) combat game available on iPhone and Android

- A new revolutionary gameplay
- No attachments or add-ons
- Uses the phone's camera, presenting an augmented reality picture on the phones screen
- Real world buildings have an impact on gameplay
- Connect to friends in real-time using geo map technology
- Join private teams and tournaments or go full out street combat mode
- Trade and sell your weapons through the Reality Clash platform or secondary markets for money
- Speculate on weapons and become a virtual arms dealer

Management Team

Strong experienced team of digital entrepreneurs (games, apps, tech, data & advertising)

Experience in growing and scaling companies

Successfully built and sold companies in the past

Launched & developed successful mobile, console and PC games

Managed and built developer teams in London, Copenhagen & Ukraine

Morten Rongaard
Co-Founder

Team & Advisors – Bios in Appendix

Ben Hebb
Executive producer

Ella Romans
Head Producer

Sam Barkaway
Project manager

Sonja Angelevska
Community Manager

Jove Stojcevski
Web designer

Additional developers post funding will include

1x Executive Producer,
1x Creative Director
1x Game designer / Project Manager
1x Monetisation / Back-end Designer

5x Programmers
3x Artists / Animators
1x Audio Engineer

George McDonaugh
Advisor

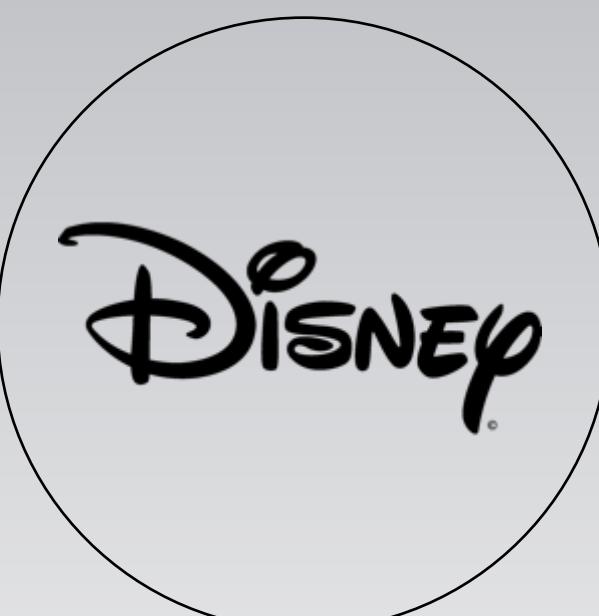

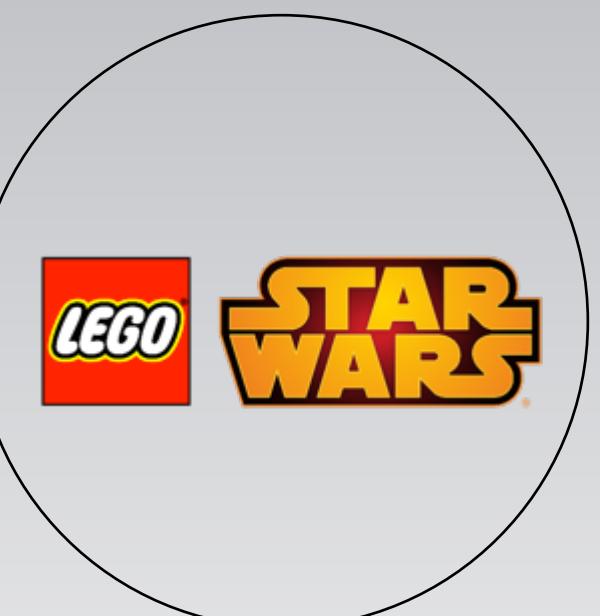

Nikola Mukoski
Web developer

Previous Development Experience

The development team have worked for over 20 years across VR, Mobile, PC and Console. Including the following:

- **Perfect** - PSVR / HTC Vive / Oculus Rift
- **Sing Star** - Disney
- **Marvel Ultimate Alliance 1 & 2** - Activision
- **Guitar Hero** - Activision
- **Risk Urban Assault** - Ubisoft
- **The Voice** - Activision
- **Powerstar Golf** - Microsoft
- **The Rocky Horror Show: Touch Me**
- **Lego Starwars Battle Orders** – Disney
- **Runescape** – Jagex
- **Habbo Hotel**

Reality Clash Game – The platform

A unique Augmented Reality (AR) gaming platform featuring;

Location Based Augmented Reality

Being able to accurately place players on the map using real time geo location technology 3D overlays to show stylized versions of the real-world buildings, that can be used to hide behind etc.

Dynamic Backend

Using middleware and bespoke engineering solutions to develop a dynamic BaaS that can evaluate all player actions / locations and change the gameplay accordingly e.g. place adverts and rewards in real-world locations

Augmented Reality Gameplay

A fun and addictive AR game mechanic within real-world environments that takes information from a combination of sources such as GPS, WiFi, accelerometers, camera feed

Integrated Marketing Opportunities

Framework for allowing adverts to be associated with real-world locations and reward players who arrive at these destinations, all controllable from a central server

REALITY CLASH

TURNS GAME INTO REALITY

Gameplay

Train and grow as a Reality Clash player, facing and fighting against enemies in their local environment.

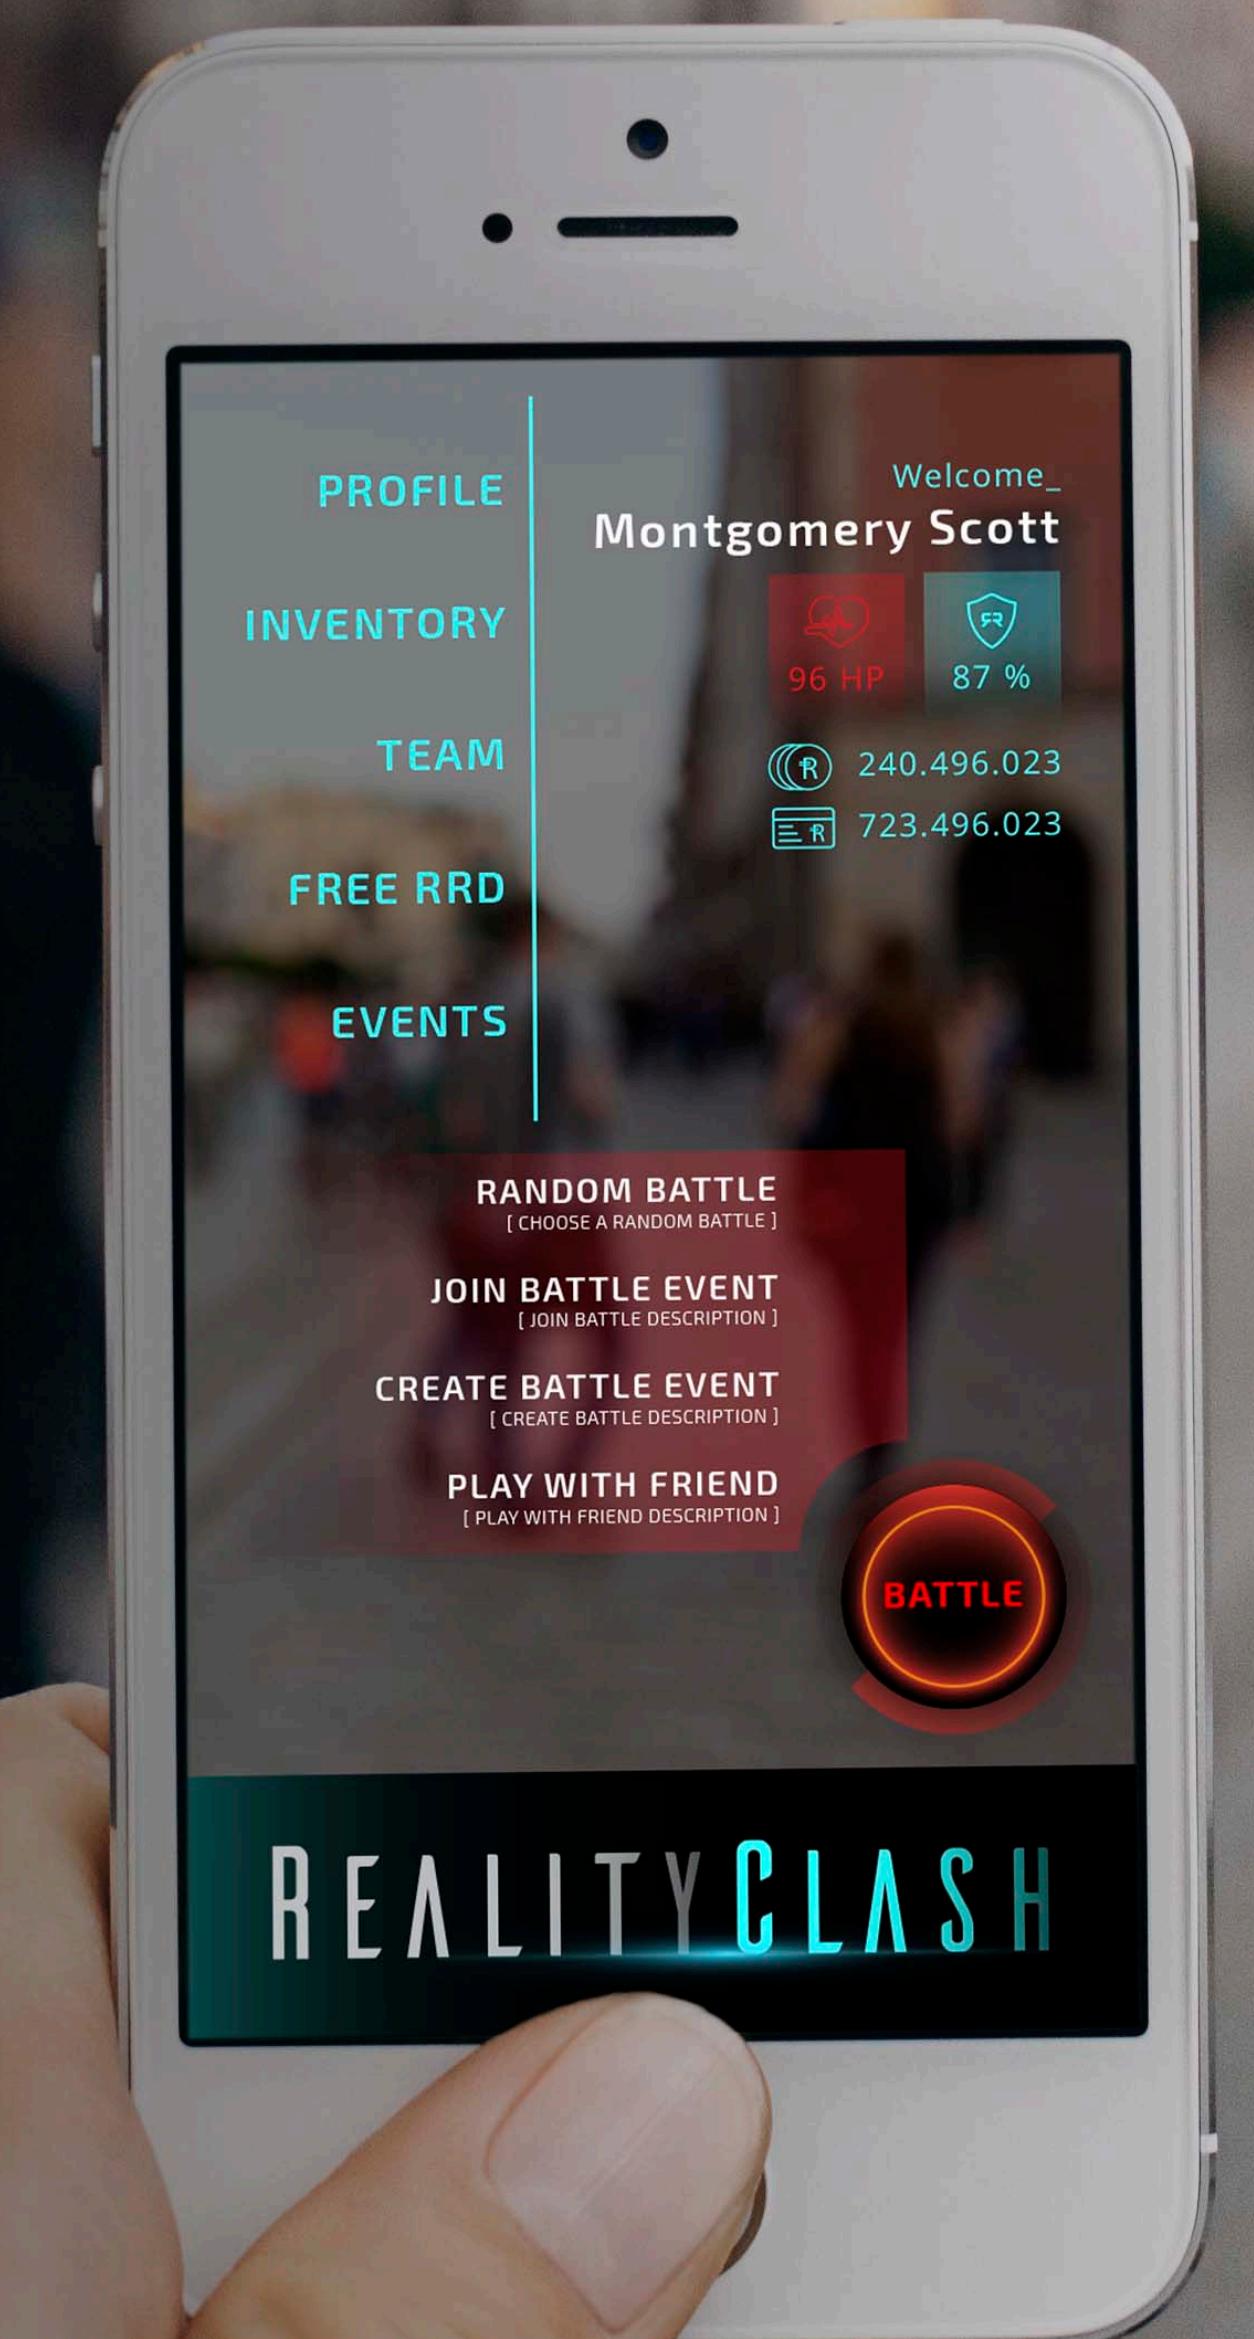

- Familiar places are now your battle fields
- The people in your surroundings are either your allies or enemies
- Build you own headquarters
- Build defenses
- Set up battles in real life environments
- 2 player or full team mode

Invite friends and set up battles in real life environments; parks, fields, woodland, businesses

Visit gaming points (retail shops) to collect Reality Clash coins – example go to Starbucks and receive 10 free coins

Equip yourself with different weapons, armor and health packs

Unlock new weapons, functions and achievements, explore your surroundings, and conquer your own city

How does Reality Clash make money?

1) In-App purchases

Buy Reality Clash coins

RCC Gold can be purchased during the token sale

RCC Silver can be purchased from the iPhone & Android app stores when the game launches

2) Trading Platform

All armory & RCC Gold will be ECR-20 tokenized

Sell or trade on the Reality Clash platform or secondary markets

3) Advertising

In Game advertising and marketing opportunities built into the app

RCC Gold coins will become very valuable on the Secondary market

Make money by selling or trading Gold coins and exclusive weapons

REALITY CLASH

How does Reality Clash make money?

In-game video advertising and promotional gaming points.

- Using augmented reality businesses and retailers can be marked on the map as safe houses, ammo points and bank points
- We drive traffic to retailers – they pay Reality Clash
- Special offers can be made in partnership with stores. For example, go to GAME retail stores, buy a game and get free Reality Clash Coins to use in the game
- We control where the gaming points can be and can auto-create them, so there will always be gaming points close to the player.
- Direct gamers to a selected location with in-app advertising
- Advertising videos at each Gaming Point

REALITY CLASH

The Tech Stack - Multi-Featured Connected Platform

Token Sale (ICO)

Funding

Reality Gaming Group will be raising a minimum of \$1.5m through an ICO token sale. Ether is used as the primary cryptocurrency from which Clash Coins are purchased.

Goal & Vision

Reality Clash will be the most comprehensive and advanced social augmented reality combat game in the market, backed by the Ethereum Blockchain

The team behind Reality Clash have worked in games for decades and been involved in many hit titles from Activision, Disney, UbiSoft and Microsoft. A working playable demo has already been developed. Following the Token Sale the funding will be used to develop the game to an MVP (minimal viable product) and trading platform.

Trading Platform launch Nov 2017
MVP game launch in Q3 2018

Why Participate In The ICO Token Sale

- Participants in the Token Sale will be able to purchase RCC gold coins in exchange for Etheruem Ether.
- Free bonus coins & discounts on RCC Gold coins
- Access to exclusive limited edition content including weapons, armor and ammo. These weapons will be available to buy and trade for money from 1st November 2017 on the Reality Clash Platform and the secondary market
- THESE WEAPONS WILL BECOME EXTREAMLY VALUABLE, THEY WILL NEVER BE SOLD AGAIN
- Access to hidden in-game levels and upgrades when the game launches
- Access to demos, invitation to join the ‘soft launch’ tournament and an exclusive medal, which will be seen on tournament leader boards, next to your name, proving you’re a founder member

Compare RCC Gold + RCC Silver coins

RCC Gold will only be available during the token sale

RCC Silver will be available to purchase via the iPhone + Android App Store at launch Q3 2018

Coin Comparison

ERC-20 Armory – Trade and Buy Weapons

- Introducing the world's first token sale armory
- The armory is our on-line store where you can buy all types of weapons and ammunition
- The weapons available in the token sale will be limited edition, designed exclusively for the token sale
- These weapons can be used in the game or traded and sold through the Reality Clash platform or on the secondary markets for money.
- All in-game content will be ERC-20 tokenized with a Blockchain based trust list.
- Make money - speculate on weapons & become a virtual arms dealer or simply enjoy your tactical advantage by playing in the game!

Team & Advisors	8,500,000
Bounties	1,000,000

What's Next?

Our journey with Reality Clash doesn't stop here.

- Future development for Virtual Reality Headsets
- Integrating special features into Smart TV
- Physical e-sports competitions (the first of its kind)
- Develop more games specifically using our platform for other entertainment verticals such as;
 - Dating
 - Treasure hunts
 - Hunting
 - Hide and seek
 - Racing
- License the platform to other games companies

Management Team Bios

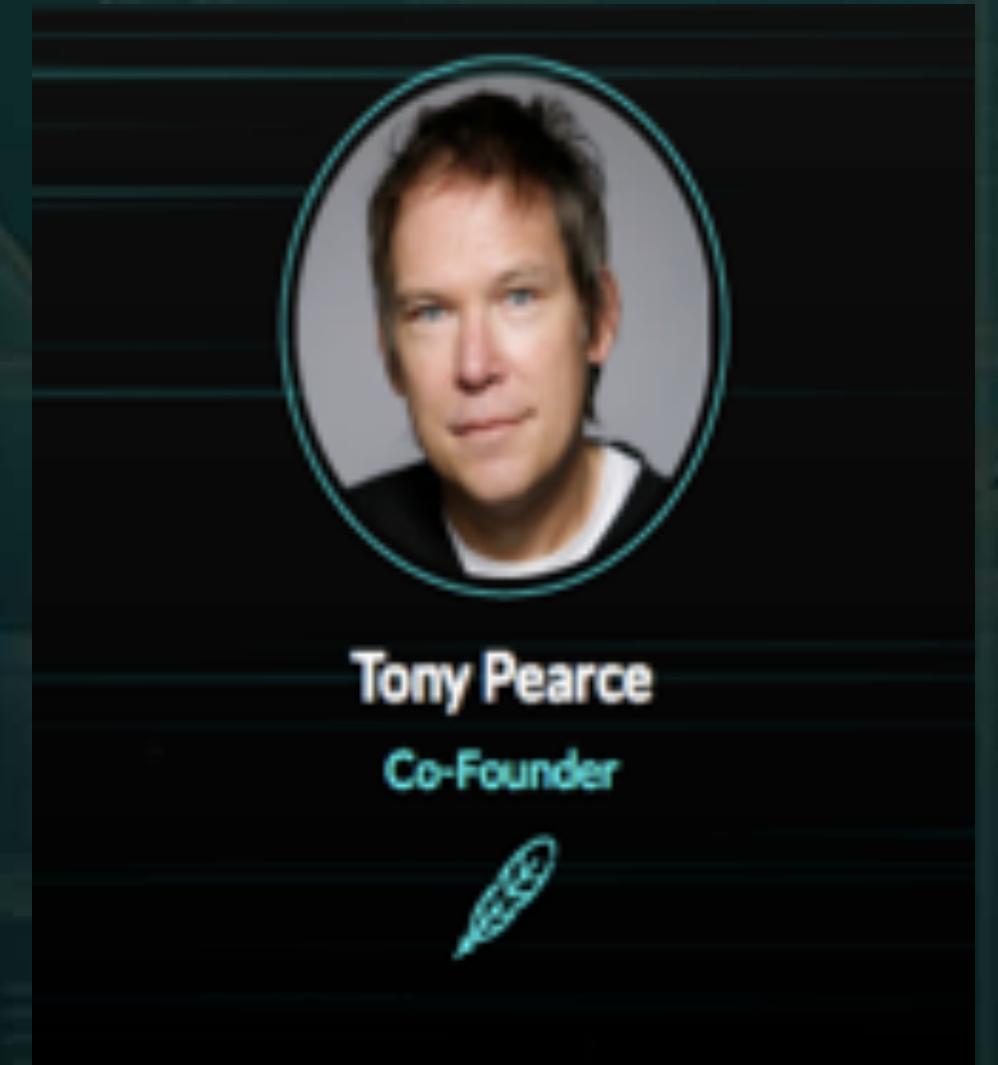

Morten Rongaard
Co-Founder

The brain behind the original idea of Reality Clash, Morten Rongaard has been a huge video games fan with a long history and experience in the field of online marketing. As the CEO of Wehoo, a world class web and design agency, Morten has collaborated with different companies and knows how to use his imagination to surpass any challenges and to move all boundaries. Morten is one old-school and hardcore Counter Strike fan who has been playing the game since it has been released. He also enjoys console gaming – International Karate, Crown of Ardania and Moostone, on Amiga and Commodore 64 consoles.

Management Team Bios

Tony has been involved in the games industry since the late 80's, originally creating games for Sega Mega Drive and Nintendo SNES. When the original Playstation was launched Tony released one of the first ever Playstation games. Since those early days Tony has become a successful entrepreneur most recently founding TeePee Games, which launched the award winning social network for gamers called GamesGRABR.

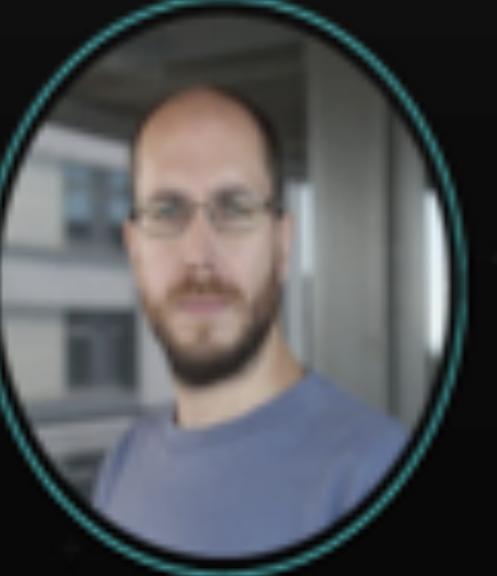

Previously Tony was the CEO and Co-Founder of mobile games publisher Player X and spearheaded the company from a two person start-up in 2004 and developed it into Europe's largest mobile games distributor. The company was named by Library House as the fourth fastest growing VC backed company in the UK before it was acquired by Spanish mobile content company ZED.

Ben Hebb

Executive producer

Having completed a degree in Fine Art, Ben undertook an MA at Middlesex University where he was introduced to algorithmically generated artwork and 3D graphics. With the release of the PlayStation, 3D gaming was brought to the mass-market and gave Ben the opportunity to bring his two passions of gaming and CG artwork together.

Ben started his career in 1996 as a graphic artist, rising quickly to lead artist and then to Art Director. His background in traditional media coupled with his technical understanding of computer graphics, allowed him to communicate across all disciplines to ensure his vision was realised.
