Executive Summary

It is a socializing platform (social media platform) focused on meeting new people who support the creation of a community, increasing interactions between people and the chance of getting rewards in cryptocurrency.

Amorito mix the functions of the most important socialization platform for knowing new people, adding new things that will have a great impact on winning cryptocurrency .(cryptocoins) and a big step in helping to create connections between people.

Executive Summary

We believe that decentralization is the future of the Internet

The Amorito project expects to achieve two targets:

Create a community where the connection between people is as easy as possible.

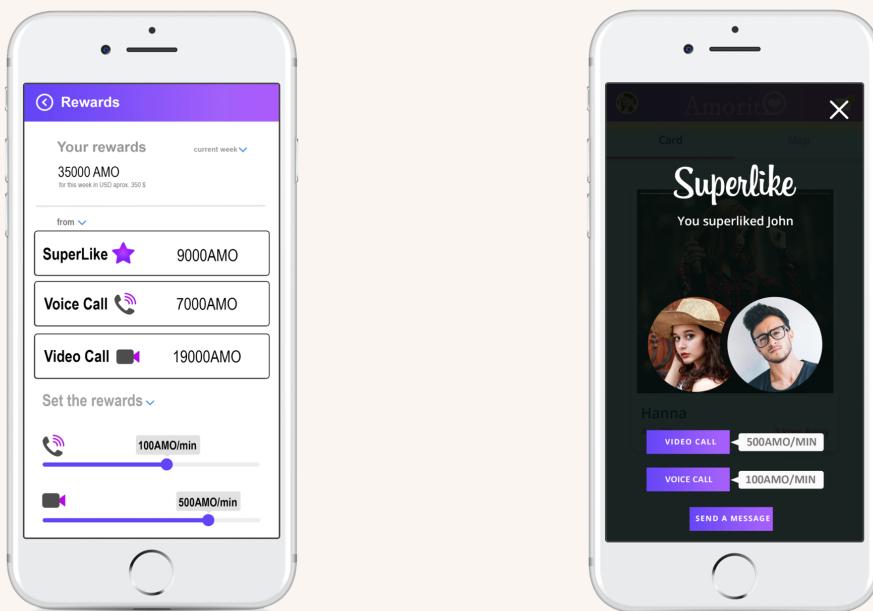

The majority of social platforms are based on a centralized system ,where most of the income it has as destination the mother company. The Amorito platform offers opportunities, such as a cryptocurrency reward system and destroys the amorous triangle created by the other platforms offering the 100% reward compared to a centralized system where rewards are between 0% -40%.

Introduction

Amorito is a socializing platform (social media platform) focus on meeting new people anywhere in the world. Think of us as the connection point. Once you get into the Amorito platform, you can choose the distance or the location within you want to meet new people. If you swipe to the left you switch to the next person and If you swipe to the right you show interest in that person. If that person swipe right, it means that a match has been made with that person and you will be able to communicate and have a deeper conversation. The platform offers three ways to communicate such as chat, voice call, and video call.

Introduction

Any user can choose if they want to receive rewards in AMO tokens for minutes spoken in voice call and video call. Already sounds interesting? That's not all. The platform also offers you the opportunity to use the Super Like option, to directly notify the person you want to know you are interested in, the Super Like cost will be rewarded for that person. Compared to the rest of the platforms, all options are free, the only costs will be rewards for other users.

The Challenge

Why are we different from other social networks?

Most Blockchain based Social Networks try to offer a reward system for copyrighted content. By definition, our social networking is a platform that allows people to communicate and make new acquaintances or friends, that is why we are trying to remain a social networking based on the rewards and not changing it into a freelancing or stock image platform.

We launched Amorito for several reasons:

The value of the platform is in establishing connections between users. We offer a FREE platform with important features chosen from the most important social network platforms and made to help the user.

The Challenge

The social network in the current ecosystem

Our goal at Amorito is to destroy the barriers created by the current centralized social networking. Every man have the right to create barriers or not, in communication with another person, this is not the platform right. Blockchain technology is a distributed database used to maintain a continuously growing list of records, called blocks. Each block contains a timestamp and a link to a previous block. A blockchain is typically managed by a peer-to-peer network collectively adhering to a protocol for validating new blocks. Decentralized systems and tokens are a revolutionary concept on the blockchain, allowing various types of DAOs (decentralized autonomous organizations) to create solutions to our

The Challenge

current centralized problems.
Introducing a decentralized social media platform based on the blockchain as a foundation for developing an entire decentralized ecosystem.

How can blockchain change the social networking experience?

Centralized social networks have a well-defined definition. The biggest part of the income belongs to the owners and a small part of the income comes from the influencers. The vast majority should get the biggest incomes because we are the "engine" and we offer the power to function but we don't get anything. Blockchain at the moment is the ability to change these parameters by creating an ecosystem that gives power and

The Challenge

makes it right for the "engine," that is, the vast majority. As a simple example to understand better, think about the time you spent on social platforms (eg facebook, instagram, youtube, tinder, etc.) how would it be if you had received a reward in your virtual wallet? Blockchain is the technology that is built on the "decentralized" idea. It is a decentralized database, or decentralized ledger where new 'blocks' are created for information that is being stored or processed. For a new block of information to be stored, it must be approved by the entire chain, meaning that the chain is completely 'decentralized' and therefore secure and transparent. Each block in the chain has a stamp that links to a previous block. Blockchains are secure databases by design solving the double spending problem (unlike physical coins or tokens,

The Challenge

electronic lies can be duplicated and spent twice) without the use of an authoritative body or central server.

How high can Amorito price go?

Active users are the engine for any social network. The reward system and the use of the free platform with all its functions will attract new users creating a snowball effect. It's simple and unstoppable, you come in, you communicate, you know people and you're rewarded.

The Challenge

AMORITO credit card

We plan to offer AMORITO credit card with Amorito wallet. Amortio credit card works just like any other card but instead of being connected to your bank account, it is linked to your Amorito wallet making it. Your card will have all the tokens and coins that will be included in your wallet.

Amorito credit cards can be used everywhere in nearly 200 countries making it easy to spend the money around the globe. This is possible because we are in a partnership with a major credit card company.

The Challenge

Listing on Exchanges

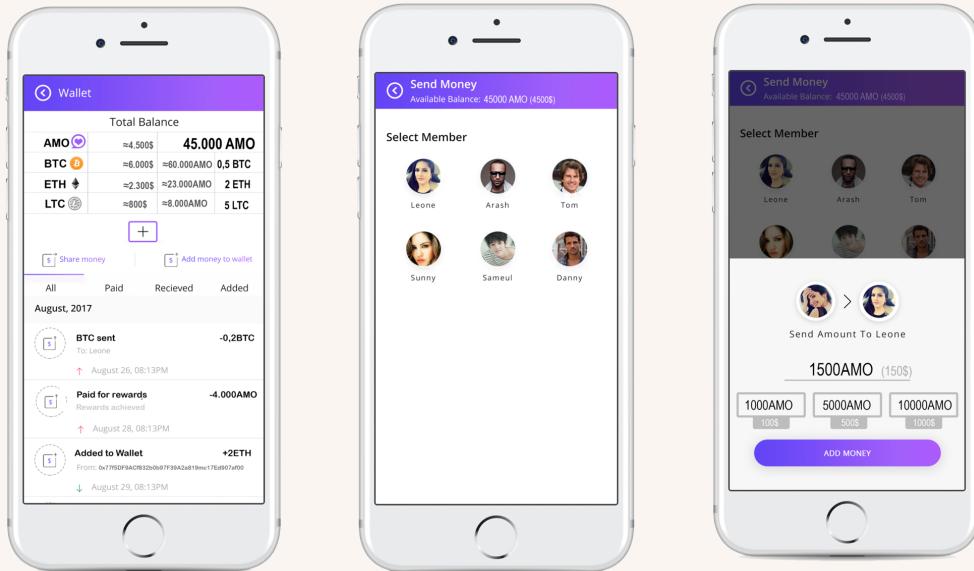

Amorito is ready with all the documentation to be listed on exchanges. Currently, we're in conversation with a few exchanges, working through the details; we intend to be listed on at least one major exchange .

- Binance • Bittrex • Bter • Poloniex • BTC38 • Jubi • Yunbi • Cryptopia • Cobinhood • Others

Wallet

AMORITO wallet

The AMORITO wallet is designed to support multiple tokens and coins, offering the ability to transfer or change AMO tokens and others. Wallet will be available on both desktop and mobile (android & iOS). We designed AMORITO wallet with a very high security system, using innovative security techniques such as secure keyboard, Two Factor Authentication and other measures for you to be safe.

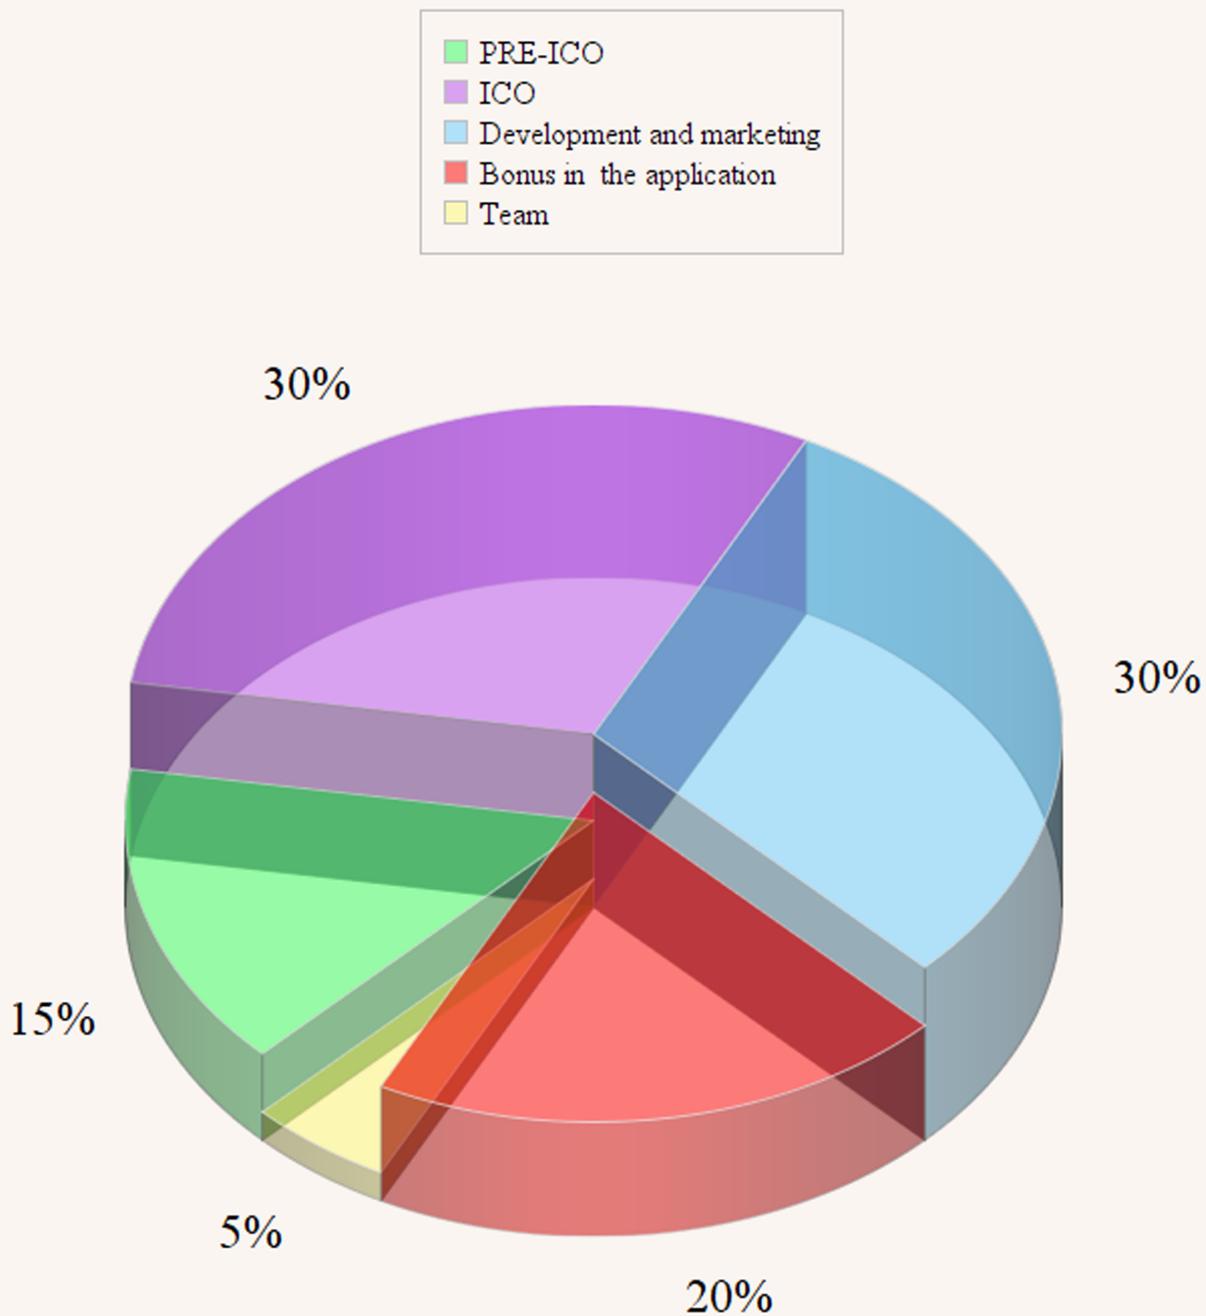

Advantage

Advantage Matrix

	Amorito	Tinder
TOKEN	AMO	N/A

IMPORTANT

AMO tokens are not intended to constitute securities in any jurisdiction. This whitepaper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction.

This whitepaper does not constitute or form part of any opinion on any advice to sell, or any solicitation of any offer by the distributor/vendor of the AMO tokens to purchase any AMO tokens nor shall it or any part of it nor the fact of its presentation form the basis of, or be relied upon in connection with, any contract or investment decision.

No person is bound to enter into any contract or binding legal commitment in relation to the sale and purchase of the AMO tokens.

There are risks and uncertainties associated with AMORITO and their respective businesses and operations, the AMO tokens, the AMO Initial Coin Offering and the AMO Wallet (each as referred to in this whitepaper).

IF YOU ARE IN ANY DOUBT AS TO THE ACTION YOU SHOULD TAKE, YOU SHOULD CONSULT YOUR LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S).

DISCLAIMER OF LIABILITY

To the maximum extent permitted by the applicable laws, regulations and rules, AMORITO shall not be liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on this whitepaper or any part thereof by you.

NO REPRESENTATIONS AND WARRANTIES

AMORITO does not make or purport to make, and hereby disclaims, any representation, warranty or undertaking in any form whatsoever to any entity or person, including any representation, warranty or undertaking in relation to the truth, accuracy and completeness of any of the information set out in this whitepaper.

IMPORTANT

REPRESENTATIONS AND WARRANTIES BY YOU

By accessing and/or accepting possession of any information in this whitepaper or such part thereof (as the case may be), you represent and warrant to AMORITO as follows:

- 1. you agree and acknowledge that the AMO tokens do not constitute securities in any form in any jurisdiction;**
- 2. you agree and acknowledge that this whitepaper does not constitute a prospectus or offer document of any sort, and is not intended to constitute an offer of securities in any jurisdiction or a solicitation for investment in securities and you are not bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment is to be accepted on the basis of this whitepaper;**
- 3. you agree and acknowledge that no regulatory authority has examined or approved of the information set out in this Whitepaper, no action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction and the publication, distribution or dissemination of this whitepaper to you does not imply that the applicable laws, regulatory requirements or rules have been complied with;**
- 4. you agree and acknowledge that this Whitepaper, the undertaking and/or the completion of the AMO Initial Coin Offering (ICO), or future trading of the AMO tokens on any cryptocurrency exchange, shall not be construed, interpreted or deemed by you as an indication of the merits of the AMORITO, the AMO tokens, the AMO Initial Coin offering and the AMO Wallet (each as referred to in this whitepaper);**
- 5. the distribution or dissemination of this Whitepaper, any part thereof or any copy thereof, or acceptance of the same by you, is not prohibited or restricted by the applicable laws, regulations or rules in your jurisdiction, and where any restrictions in relation to possession are applicable, you have observed and complied with all such restrictions at your own expense and without liability to AMORITO;**
- 6. you agree and acknowledge that in the case where you wish to purchase any AMO tokens, the AMO tokens are not to be construed, interpreted, classified or treated as:**
 - any kind of currency other than cryptocurrency;**
 - debentures, stocks or shares issued by any person or entity**
 - rights, options or derivatives in respect of such debentures, stocks or shares;**

IMPORTANT

- rights under a contract for differences or under any other contract the purpose or pretended purpose of which is to secure a profit or avoid a loss;
- units in a collective investment scheme;
- units in a business trust;
- derivatives of units in a business trust; or
- any other security or class of securities

7. you have a basic degree of understanding of the operation, functionality, usage, storage, transmission mechanisms and other material characteristics of cryptocurrencies, blockchain- based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology;

8. you are fully aware and understand that in the case where you wish to purchase any AMO tokens, there are risks associated with AMORITO and their respective business and operations, the AMO tokens, the AMORITO Initial Coin Offering and the AMO Wallet (each as referred to in the whitepaper);

9. you agree and acknowledge that AMORITO is not liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on this Whitepaper or any part thereof by you; and,

10.all of the above representations and warranties are true, complete, accurate and non- misleading from the time of your access to and/or acceptance of possession this whitepaper or such part thereof (as the case may be).

CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

All statements contained in this Whitepaper, statements made in press releases or in any place accessible by the public and oral statements that may be made by AMORITO constitute “forward- looking statements”. Some of these statements can be identified by forward-looking terms such as “aim”, “target”, “anticipate”, “believe”, “could”, “estimate”, “expect”, “if”, “intend”, “may”, “plan”, “possible”, “probable”, “project”, “should”, “would”, “will” or other similar terms; however, these terms are not the exclusive means of identifying forward-looking statements. All statements regarding AMORITO’s financial position, business strategies, plans and prospects and the future prospects of the industry which AMORITO is in are forward-looking statements.

IMPORTANT

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results, performance or achievements of AMORITO to be materially different from any future results, performance or achievements expected, expressed or implied by such forward-looking statements.

Nothing contained in this Whitepaper is or may be relied upon as a promise, representation or undertaking as to the future performance or policies of AMORITO. Further, AMORITO disclaim any responsibility to update any of those forward-looking statements or publicly announce any revisions to those forward-looking statements to reflect future developments, events or circumstances, even if new information becomes available or other events occur in the future.

NO ADVICE

No information in this whitepaper should be considered to be business, legal, financial or tax advice regarding AMORIOT, the AMO tokens, the AMORITO Initial Coin Offering and the AMORITO Wallet (each as referred to in the Whitepaper). You should consult your own legal, financial, tax or other professional adviser regarding AMORITO and their respective businesses and operations, the AMO tokens, the AMORITO Initial Coin Offering and the AMORITO Wallet (each as referred to in the whitepaper). You should be aware that you may be required to bear the financial risk of any purchase of AMO tokens for an indefinite period of time.

NO OFFER OF SECURITIES OR REGISTRATION

This whitepaper does not constitute a prospectus or offer document of any sort, and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. No person is bound to enter into any contract or binding legal commitment.

No regulatory authority has examined or approved of any of the information set out in this whitepaper. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of this Whitepaper does not imply that the applicable laws, regulatory requirements or rules have been complied with.
